

## Customer Case\_Municipality Den Bosch

### ‘Set It and Forget It’ is How Dutch Municipality Den Bosch Calls Its New All-Flash Storage System

➤ <https://e.huawei.com/en/case-studies/solutions/storage/den-bosch>

#### | Den Bosch Reflects on a Decade of Modern Data Storage

Ten years ago, Den Bosch—a Dutch municipality with 2,500 employees serving a community of 160,740 inhabitants—concluded its data storage system was no longer fit for purpose. The city began a tender process for a modern solution. It got a bid from Netherlands-based data specialists at AnyLinQ who worked in collaboration with Huawei. Back then, Den Bosch were keen to learn more about its relationship with the global technology provider. Fast-forward to today, the municipality is reaping the benefits of its decision to adopt Huawei's OceanStor Dorado 5000 data storage solution, backed by AnyLinQ's expertise and support.

## Customer Case\_Sona Business

### Sona Business: Efficiency Boost for Corporate Data Centers

➤ <https://e.huawei.com/en/case-studies/solutions/storage/sona>

"After evaluating several vendors, we found that Huawei offered the most competitive price without compromising on quality or performance."

"With the help of Huawei's products, we have been able to reduce our downtime and enable our IT team to resolve issues quickly. This allows us to maintain smooth business continuity and focus more on strategic initiatives."

"Our experience of working with Huawei was very positive. On Christmas Eve, we experienced an outage that affected our services. Despite the holiday, Huawei responded promptly and solved the problem in no time."
